

# Safeguarding Children and Adults at risk from abuse and neglect

## Safeguarding Awareness Month, March 2018

The more we know about Safeguarding and the more we talk about it in our work, at home and in our communities the better we can work together to prevent abuse and neglect of children and adults at risk.

Throughout March 2018 agencies in Cambridgeshire and Peterborough will be running events or taking small actions to raise awareness of Safeguarding, perhaps having team meetings with Safeguarding as the main agenda item, or adding an email strapline with an important Safeguarding message.

***Safeguarding is everyone's business***

**Ask your manager or your Safeguarding Lead for details of events being put on by your agency, or about how you can get involved.**
